

The next level – now in its 14th year, the TUNE IT! SAFE! campaign is even more highly charged. The new campaign car of the Initiative for Safe Tuning is just electrifying. TUNE IT! SAFE! consistently focuses on progressive automobile tuning with the BMW i8 by AC Schnitzer. Over the course of a year, the plug-in hybrid sports car developed by BMW with an original police car design will be touring through Germany to raise awareness of safe and regulation-compliant tuning.

It is the athletic front, impressive gull-wing doors and progressive line design that make the BMW i8 Coupé into a fascinating car. With extensive tuning components from AC Schnitzer and ultra-high-performance Hankook tyres, along with a special signalling system from Hella and official film décor from FOLIATEC.com, the TUNE IT! SAFE!-campaign car is clearly a futuristic eye catcher.

TUNE IT! SAFE! POLICE CAR SPECIFICATIONS SHEET: BMW i8 by AC Schnitzer

Specifications

Vehicle type	BMW i8 Coupé
Engine/motor	Plug-in hybrid (petrol engine: 1.5 l electric motor)
Displacement	1.499 cm ³
Maximum speed	250 km/h
Maximum speed, electric only	120 km/h
Acceleration 0-100 km/h	4,4 Sekunden
Output max. torque (system)	275 kW (374 PS) 570 Nm
Output max. torque (electric)	105 kW (143 PS) 250 Nm
Fuel consumption combined*	1,8 l/100 km
Electric consumption combined*	14.0 kWh/100 km
CO2 emissions combined*	42.0 g/km

TUNE IT! SAFE! – tuning features

Aluminium pedals, aluminium cover Black Line for iDrive Controller, Aluminium shift paddle set	AC Schnitzer
Official police foil décor, SECURLUX safety foil	FOLIATEC.COM
Special signalling system „RTK 7“, flashing beacons	Hella

* The official fuel consumption, CO2 emission figures and power consumption were measured using the methods required according to Regulation VO (EU) 715/2007 as amended. In this vehicle, different figures than those published here may apply for the assessment of taxes and other vehicle-related duties which are (also) based on CO2 emissions. Range is dependent on a variety of factors, above all personal driving style, street conditions, outside temperature, heating/air conditioning/preheating. For further details on official consumption figures, official specific CO2 emissions and power consumption of new cars, please refer to the „Manual on fuel consumption, CO2 emissions and power consumption of new cars“ available free of charge at all sales outlets, from Deutsche Automobil Treuhand GmbH (DAT), Hellmuth-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen and at <https://www.dat.de/co2/>.
