

THE TUNE IT! SAFE! SAFE! POLICE CAR SPECIFICATIONS: ABT RS4-R

Power from the Allgäu - TUNE IT! SAFE! heads into the 15th campaign year with a sporty station wagon for the first time. The already pretty powerful and dynamic Audi RS4 Avant has been upgraded to the ABT RS4-R by the Kempten tuning specialists from ABT Sportsline. With changes regarding wheels and tyres, suspension, add-on parts, engine, exhaust system and interior, TUNE IT! SAFE! once again highlights what can be achieved with automobile tuning without losing the aspect of road safety and compliance with regulations.

In addition to the extensive tuning measures by ABT Sportsline, the ABT RS4-R features Hankook's ultra-high performance Ventus S1 evo 3 tyres and, thanks to the „RTK 7“ signal system and the flashing beacons from Hella, as well as the official police foil decor from FOLIATEC.com, will become the new TUNE IT! SAFE! campaign vehicle. This means that the initiative for safe tuning 2020 is once again going on tour through Germany with a show car in the original police look.

Specifications

Vehicle type	Audi RS4 Avant
Displacement	2.9 TFSI
Engine/motor	2.894 cm ³
Maximum speed	280 km/h
